Barstuhl TABVITORIA

**1**

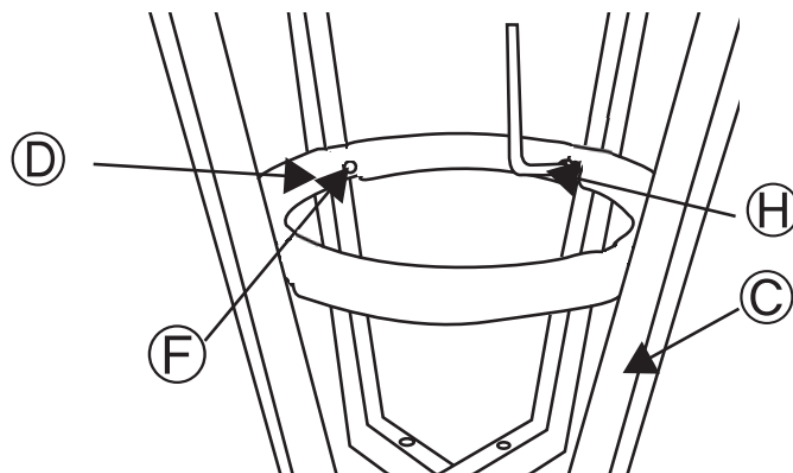

Put the leg I into leg C groove

If the right leg frame is raised up and the assembly screw holes are visible to the outside, the backrest cannot be assembled.

When viewed from behind, the left leg skeleton! Pls check.

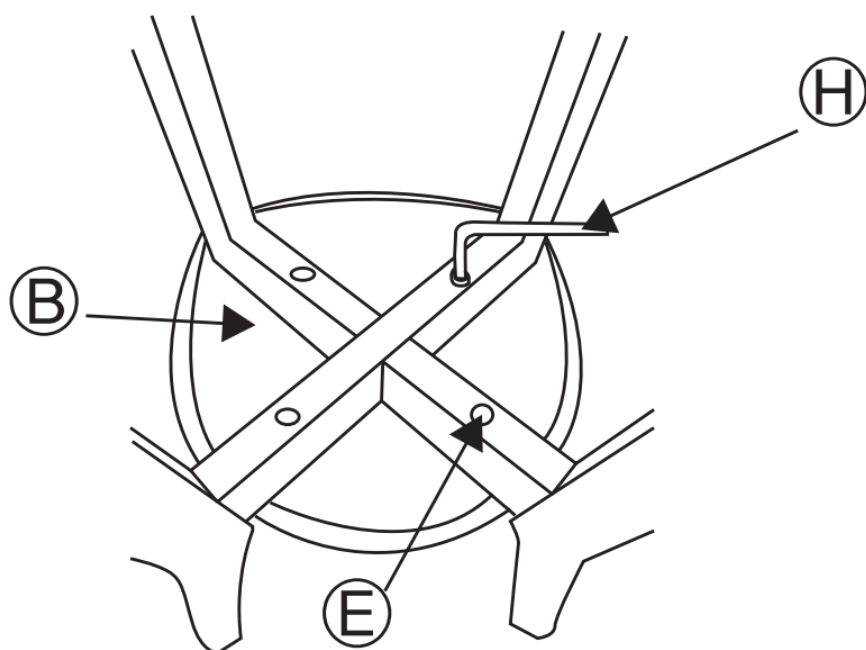

---

**2**

Flip it over on a desk, dining table, table etc, tighten the footrest (D) with the leg assembly screw (F) in all 4 places.

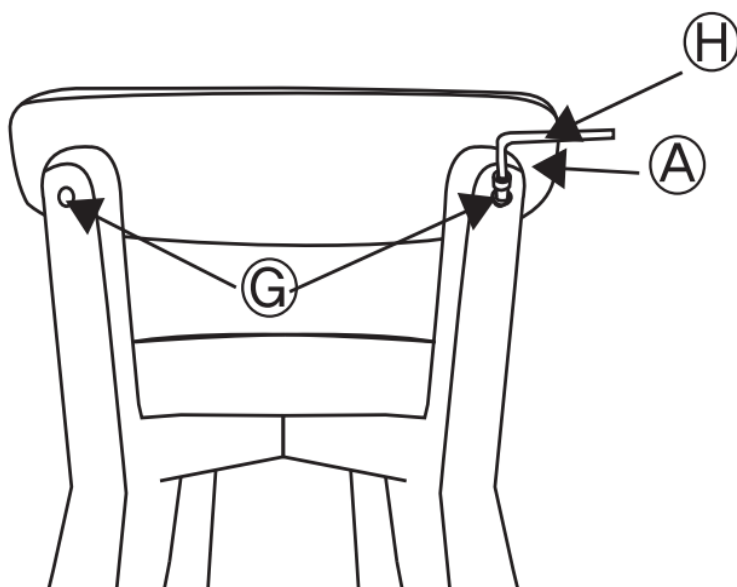

3

Turn the seat over, using E to connect seat and frame.

4

Please confirm the backrest assembly screws before assembling.

The screws will come out of the backrest when assembled with the wrong screws.
